A LONG LINE.

If it is announced that arrangements have been made for a line of through sleeping cars from St. Louis to Boston over the Wabash, Grand Trunk, New York Central and Hudson River roads, the enterprise is inaugurated by the Wabash, and it is said will be the longest line of sleeping cars in the world. The first car left St. Louis on Monday evening. The time between the two points will be a little less than forty-three hours.

A Prohibition State Convention has called to meet in Detroit on the 1st of June, and the objects of the convention to be "For the purpose of nominating candidates for state offices and members of the General Assembly."

The famous Jennings case in England, from which it is said Dickens got his idea of Jarndyce v. Jarndyce has been tried and will be decided by the court that fifty years peaceful possession of the property in question can supersede title of the present possessors whatever might have been their original rights. The case has been in the courts over fifty years and many American lawyers have had disease of obituaries a slice of the fortune.

The New Orleans *Democrat* says of the time that General Hancock was the President's messenger to Governor Nicholls to secure the pardon of Anderson: "For cold-blooded, unblushing impudence this beats the devil himself." The *Democrat* further remarks that there is not a word of truth in the story whereupon the New Orleans *Times* declares that it is well known Nicholls had decided to pardon Anderson, and that he communicated this fact to General Hancock.

TEMPERANCE IN THE COUNTRY.

In the south part of Whitmore township a Temperance Alliance was organized early in the winter, with headquarters at what is known as the brick church. At the last regular meeting officers were chosen for the ensuing quarter, and Henry Rhodes, Esq., was chosen president. Mr. R. has been known for several years as a hard drinker, but he is now thoroughly reformed, and is an active temperance worker. The regular meeting of the Alliance was held on Monday evening of this week, on which occasion the church was nearly full, notwithstanding the roads are still quite bad. The people in that vicinity are wide awake in the cause, and in addition to the temperance move, an anti-tobacco pledge has been started, which received quite a number of signatures at the meeting on Monday night. After several addresses the pledge was offered, and three names were secured to the temperance pledge.

WADE HAMPTON will not be a candidate for re-election as Governor of South Carolina, but resorts himself for Patterson's seat in the Senate, falling this next year. He believes that the Republicans of South Carolina will so far yield to the President's Southern policy as to give the Democrats an unopposed field in the next election.

The so-called "National" party owes its very existence to the Republican party. The central, if not the only plank in the platform is the "greenback." But for the Republican party the "greenback" would not have existed and the "National" party would not have come into being. Under such circumstances it would well do to be "Nationalists" who think themselves united with the Democratic and friends of the Union, though the "National" party does not.

Montgomery, April 1.—James of Knightsbridge, who had all his money used up in a recent visit, had to return to England, and was compelled to sell his pictures, which he left for the safety. He had been engaged in a successful career, but had recently become an idler, and was compelled to spend all his time idly, visiting the cost of living in London. His friends say that he will be forced upon them, after all, that the Congress offers the only possible alternative.

IRAWAHI.—Concordia, April 1.—The Grand Duke Nicholas had a two hours interview with the Sultan, Saturday. On Saturday morning was held a very elaborate presentation. The Russians are verifying the loss of Chotija and the other fortresses, and are sending a large force to reinforce the fortifications. The Sultan has appointed chief of the general staff.

THE DAILY TRIBUNE.—Concordia, April 1.—The Sultan has been informed that the Russian forces sent from Vienna are coming to the relief of the fortresses. The Sultan has issued a decree that the Russian forces shall be allowed to pass through his dominions, and that the Sultan will be responsible for the safety of the Russian forces.

MONTGOMERY BLAIR'S SCHEME

The scheme of the late Dr. Blair, a stationery and printing firm, to establish a Maryland legislature, a convention, and a new state, has been submitted to the attorney general of Maryland to exhibit a bill to the United States supreme court setting forth that by reason of fraudulent returns made from other states, and allowed to be given to the electoral vote of Maryland, and praying the court to issue a writ of mandamus to the legislative commission, and upon such revision declared that Hayes and Wheeler were not, and Tilson and Tilden were, elected president and vice-president of the United States. A dispatch to the *Inter Ocean* says that Senator Cox is authority for the statement that these resolutions are the first step in a proceeding which will oust Hayes and seat Tilden in the White House; that they will be passed by the state senate of Maryland, and signed by the governor, and that the attorney general of that state will sustain Blair and Jerry Black to assist him, and they will argue the case in the supreme court. Cox says that the whole plan is well laid out, and the proceedings will certainly result in a changed president.

It is evident from this and other statements which have lately been made that a portion at least of the democracy are determined to make the question of Mr. Hayes' right to his seat as have in the congressional elections this fall. That is in the plain English of the Blair scheme. Nobody believes that any serious contest of the matter will be made in the supreme court or any other court, but if by raising the by of fraud and reviving all the hates and bitterness of the late electoral contest a few more democratic congressmen can be chosen with dealing in drugs designed to cause the purpose of the democracy, including Montgomery Blair will have been accomplished.

RESCUING THE REPUTATION

For nearly a quarter of a century it has been acknowledged that Dr. Sage's Catarrh Remedy has no equal in speedily and permanently curing cold in the head and all material affections of the nasal cavities. Its unique size and great popularity are dependent upon and entirely due to its merits and superiority over all other similar preparations. Very many physicians having thoroughly tested it are now prescribing it in their practice.

HAMILTON, Ont., Jan. 1, 1877.

Dr. R. V. Price, Buffalo, N.Y.—Dear Sir:—We have been informed with much interest that you want to become more active, seriously affecting my throat and lungs. My stomach and blood were also sick, out of order. I tried many potions but temporary or no relief. My general health became worse, so that I despaired of life. Seeing favorable notices of your medicines I procured one dozen bottles of the Golden Medical Discovery and a supply of Dr. Sage's Catarrh Remedy. The Discovery purified my blood and restored my general health. The Catarrh Remedy gave immediate relief, and after a little perseverance, a radical cure was effected.

Thankfully yours,
ROBERT MCCORMICK.

NEW ORLEANS, April 1.—The Supreme Court has made the following order in the Anderson case:

"It is ordered and decreed that a rehearing be refused, and that our judgment stand undisturbed."

Mr. Cuttell, one of Anderson's counsel, immediately went with a copy of the decree before Judge Walker, who at once ordered the release of Anderson from the parish prison and about 12:30 this afternoon (Gen. Anderson was released).

LOXMOOR, April 1.—A St. Petersburg dispatch says that Lord Derby's resignation of the Foreign Office, a complete surprise, and came from a private resolution in official circles. Lord Derby, by the dispatch, is reproached in having misled England and Russia by giving up the Balkans in his speech.

A Vienna dispatch says that in consequence of Lord Derby's resignation and calling out of the reserves Austria has given up its efforts to effect a compromise about the Congress, feeling sure that Russia will not yield to England's demands, as he was doing enough to gain some time in establishing before a threat, but the Foreign Office may yet be retained.

The court room was crowded in anticipation of the trial of the notorious woman, but before the case was called telegrams announcing her death were received, and the Judge ordered a postponement till to-morrow, remarking that he could hardly believe any one would trifle with the court in such a serious matter.

WASHINGTON, April 1.—Several gentlemen who called on the President today, having incidentally alluded to the position of Republican Senators toward him, he replied that he supposed there was now a better feeling among them, as from what he could hear, they had recently given as expression to their views concerning him, and especially, he thought, Andrew Motte, felt better after delivering his speech. The President does not seem to be least disturbed by these adverse criticisms, placing himself in the group that he is acting in accordance with his sense of right.

Germany, however, was before the Committee of Banking and Currency to-day, by invitation, and, in the course of his statement, he claimed that after the suspension of specie payment, he will have available to audience about \$60,000,000 in United States notes, under the authority of the banking law of 1873, contained in the act of March 3, relative to reissues of United States notes received for taxes.

LONDON, April 1.—The Queen's message for calling out the reserves was read by the Spanish Ambassador at the Foreign Office, and the Queen, however, has not yet signed it. The Queen has appointed chief of the general staff.

THE DAILY TRIBUNE.—Concordia, April 1.—The Sultan has been informed that the Russian forces sent from Vienna are coming to the relief of the fortresses. SUICIDE OF A NOTORIOUS NEW YORK WOMAN.

NEW YORK, April 1.—The police were startled by the announcement that the well known Madame Restell had been found dead early in the morning in the bath room in her mansion on Fifth avenue. Ex-Judge Stewart, of the District Attorney's office, was called by the woman's family at an early hour and informed that she had retired last night, feeling very despondent about her trial, which was to have taken place today. She rose in the night and went to the bath room, where she fell dead. The madame stated to a friend last night that she did not care what might be the result of the trial, so far as she herself was concerned. She only cared for the reputation and feeling of her grandchild. The case was called in court to-day and adjourned. It will be recalled that she was arrested a few weeks ago through the exertions of Anthony Comstock, who charged her with dealing in drugs designed to cause abortion.

Dr. Cushman, the Coroner's physician, examined the body and found a deep gash had been cut across the front of the throat, severing the jugular vein. A slight cut on the right side of the neck, and a little below this gash, indicated that the first attempt had been ineffectual. It was Dr. Cushman's opinion that death was caused almost instantly. The knife was a long cutting knife which was used on Madame Restell's table, and which she is believed to have taken up stamp and secreted in her room last night.

The water had been left running in the bath tub, and had run so long that the tank above was exhausted. The overflow had passed off through the waste pipe, and hence there was but little blood in the water, which still filled the tub. The body was cold, and it was evident that the woman had been dead for some hours.

Ever since her arrest Madame Restell had manifested greater fear and anxiety on account of a belief that the prosecution intended to bring other charges against her in reference to old cases. This belief had taken such possession of her that it almost amounted to hallucination. The members of her family say she was very nervous all day yesterday, and showed symptoms of mental derangement.

The suicide was discovered about 8 o'clock this morning by the serving girl, and her screams aroused the other occupants of the house, who were, in addition to the servants, Madame Restell's daughter, grandson and granddaughter, and the latter's husband. The daughter lives in Harlem, but came to the house to visit her mother this morning, before the suicide was discovered.

The court room was crowded in anticipation of the trial of the notorious woman, but before the case was called telegrams announcing her death were received, and the Judge ordered a postponement till to-morrow, remarking that he could hardly believe any one would trifle with the court in such a serious matter.

WASHINGTON, D. C., April 1.—The efforts of the Republican leaders in both Houses of Congress to determine upon a line of policy, independent of Executive action, on the subject of consolidating the national debt, have been held recently, with a view to united action. The Republican Senatorial Caucus Committee have had several consultations on the subject, and expect to be able to report in a few days.

Recently several dinners have been given by prominent Senators and members of Congress to determine upon a line of policy, independent of Executive action, on the subject of consolidating the national debt, have been held recently, with a view to united action. The Republican Senatorial Caucus Committee have had several consultations on the subject, and expect to be able to report in a few days.

WASHINGTON, D. C., April 1.—

Mr. H. C. AUBREY.—Dear Sir: I

have determined to prepare the lozenges with which you have been kind enough to supply me from time to time, for the general market. I was

alarmed at my condition at the time my

cough attacked, you attention, and I

desire you to offer them to me as a remedy,

but they soon produced a cure. It

will give me pleasure to recommend Har-

rison's Cough and Voice Lozenges to any

of my friends who may suffer or be

threatened as I was when they gave me

relief. I have not much faith in specific

remedies, but your Lozenges certainly

proved such in my case.

Yours, very truly, WM. D. KELLY.

GERMAN SYRUP.

No other medicine in the world was ever given such a test of curative qualities as Boehe's German Syrup. In three years two million four hundred thousand small bottles of this medicine were distributed free of charge by Druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia, and other diseases of the Throat and Lungs, giving the American people undeniable proof that German Syrup will cure them. The results taught that Druggists in every town and village in the United States are recommending it to their customers. Go to your Druggist and ask what they know about it. Sample Bottles ten cents. Regular size 25 cents. Three doses will relieve any case.

FARMERS say that ground broken up much better than usual this spring because much less land is to be tilled than is commonly the case. This seems to be the state of the case in all parts of the country.

Recent inquiries of farmers in our district show damage done to fruit by the frost bringing temperatures regular. This bell will there are as many peaches and cherries left unharmed as the trees can well sustain. We hope these views of the case question are correct.

In this country the heavens in all directions are brilliantly illuminated on evenings by the burning of corn stalks which have been raked together during the day. The light from these, but no piles bear some resemblance to the sun over western prairie fire.

EXTRAORDINARY CONCERTS.—The Judd Comedy Company, which was invited to appear at the Opera House on Monday evening next and was to remain for two weeks, has canceled the engagement.

AN ANTI-LICENSE VICTORY.—Yesterday Marcus held his charter election and elected an anti-license board of trustees by a majority of twenty-nine. A full vote was polled and the question of license is now warmly contested.

A Hoosier in Trouble.—Yesterday a fellow giving the name of John Dickey and claiming to have fallen from Indiana took a cup of Decatur whisky. As might be expected the dose was a little too much for him and he went down under its influence. The police picked him up and lodged him in the calaboose for the night. In the morning he interviewed Justice Abbott who fined him three dollars and cost. In default of the needful he was given thirty minutes in which to leave the city on offer of which he availed himself in a hurry.

CRIMINAL WATCHED.—Since the arrest of Dr. Griggs the goings-on of that notorious hooligan have closely watched, though he had been held for his appearance at the next term of court. On Sunday night Sheriff Forstmyer was at the depot on his leaving of the train, going east with a view of intercepting the doctor should he attempt to take that train. When he train drew up to the platform the sheriff saw him approaching a car with a young lady on his arm as if to step on board, but as he did so the car's eye caught sight of the officer standing near him when he at once turned away from the train and took a carriage for up town.

SUSPENDED SENTENCE.—Tuesday evening Mr. B. H. Hooker, who was on the bond of Dr. Griggs, as sheriff, on his appearance in the next term of court, came out to answer to the charge of passing bad checks in violation of the laws of Illinois, placed upon him that he should withdraw from office. He did so, and upon his return to the office of the sheriff, he was suspended, and still remains suspended, awaiting his trial.

DRUGSTORES.—The usual signs of business are to be seen in the drugstores, though the sales are not so great as in former years.

COMMITTEE REPORT.

DECATUR, March 28, 1878.
To the Officers and Sisters of the W.C.T.U.
Your committee appointed and earnestly requested, to visit the six unfortunate young girls who were arrested and lodged in the calaboose on Thursday of last week, would respectfully submit the following report:

On Tuesday the 26th, about four o'clock in the afternoon we, as a committee from the Christian Union, went to the place above mentioned, deeply impressed with the thought that something ought to be done for those who had fallen so low in the scale of human degradation, and that some measures be taken to save others from falling. At the same time truly feeling out inability to do anything unless guided by the sobering counsel of Him who giveth the power; therefore we went forth trusting in God, asking his guidance that we might be the means of accomplishing, at least, some little good.

When we arrived at the calaboose we were met by the woman who held the key that unlocked the cell where these pitiable creatures were confined. After passing in the door was again locked behind us, and we were left alone with the prisoners in a damp, dirty cell, forgetting for the time being, every thing but the circumstances that led us there, and the ones before us. We found but three girls there, the others having been released in the morning. They received us kindly, and kindly thanked us for coming; they acknowledged their wrong doing. Two of them, especially, seemed most penitent, and expressed a desire to live a better life. One said she had a good mother, and would be sorry further to know of her condition. Another said that to a great extent she blamed her mother and sister for the life she was leading at the time she knew that their treatment did not justify her in doing wrong. They manifested a great deal of feeling, and frequently shed tears in speaking of their mothers. We advised them that it is better to forsake their evil companions and lead virtuous lives in the future. It is well known, even to those that everything is against them under existing circumstances.

We think one of our urgent needs is a reformatory school for young girls who are in a life of shame, who are not only restrained, but instructed not only kept from vice, but led to virtue, their employed in useful labor, and reading such things as will benefit them in this world, itself supporting them. It is really nothing done for this class in society, they are left to rot and will die.
